NEWSLETTER – 15th April 2022
**COMPLETION OF EIGHT
KMAKEDPDE & AUTH DISSEMINATION WORKSHOPS**

Aristotle University of Thessaloniki (AUTH) and the Perifereiaki Diefthinsi Protovathmias & Defterovathmias Ekpaidefsis Kentrikis Makedonias (KMAKEDPDE) are the two partners from Greece in the project Erasmus+KA3 Project ‘Building School-Wide Inclusive, Positive and Equitable Learning Environments Through A Systems-Change Approach’ (code: 606687-EPP-1-2018-2-CY-EPPKA3-PI-POLICY). For the effective dissemination of the SWPBS project, the two Greek partners AUTH and KMAKEDPDE cooperated systematically to design and implement a series of dissemination workshops.

From the 9th of February till the 7th of April 2022, KMAKEDPDE and AUTH organized and implemented a total of eight dissemination workshops (Table 1) addressed to all members of the Greek educational community. More specifically, AUTH and

KMAKEDPDE defined two goals for the implementation of the dissemination workshops: (a) the first goal referred to the quantity of the dissemination workshops and the geographical distribution of these workshops, (b) the second goal referred to addressing all types of stakeholders that are relevant within the educational community with the implementation of an intervention program in primary schools.

Regarding the first goal about the quantity of the dissemination workshops and the geographical distribution, AUTH and KMAKEDPDE organized the events in different geographical prefectures and educational districts of Northern Greece to disseminate the SWPBS project to a wider area/educational community as possible.

The workshops were organized in the eastern and western Thessaloniki, in the prefecture of Halkidiki, the prefecture of Imathia and the prefecture of Kilkis. Overall the events were addressed to the educational community of four cities, expecting that the participants would function as multipliers for their other colleagues as well. As for the second goal about the dissemination of all types of stakeholders, AUTH and KMAKEDPDE organized the dissemination workshops addressed to school counselors of both primary and secondary education, primary school principals and primary school teachers (of the four cities mentioned above). It was our intention to engage all the important “components” of the educational community in the dissemination of the SWPBS workshop.

Overall, a total of 8 dissemination workshops were organized with the participation of 285 school counselors, school principals and teachers. An overview of the organized dissemination workshops can be seen in table 1.
